PROJECT EXPERIENCE

WellConnect

- Collaborated in a hackathon team to design and develop a well-being app aimed at connecting users with support organizations and meetings, addressing issues like addiction and depression
- Contributed to brainstorming and executing a concept within a 48-hour timeframe, showcasing adaptability and teamwork under pressure
- Presented the app to judges and participants, winning the Crowd Favorite award for impactful and user-centered design

Bill Generator

- Developed a billing application that generates unique bill IDs, enhancing traceability and organization in billing processes
- Designed functionality to add items and subitems with detailed descriptions and pricing, providing a comprehensive billing breakdown
- Enabled users to print completed bills and generate new ones, ensuring seamless usability

WORK EXPERIENCE

Leeman Co, *Lead Welder*, Nov. 2021 – Present

Powder Springs, GA

- Conducted welding operations, ensuring precision and adherence to project specifications through accurate blueprint reading and measurement
- Performed precision welding and metal fabrication for high-profile clients, including Racetrack, AutoNation, and T-Mobile, ensuring 100% approval on final inspections before shipment
- Cooperated with engineers and team members to troubleshoot and resolve issues, improving project efficiency
- Trained and mentored junior welders while utilizing the Motoman interface to program robotic welders, increasing production efficiency by 30 – 40%

Valencia's Concrete, *Group Leader*, May 2019 – Nov. 2021

Dalton, GA

- Led a team in constructing durable and precise foundations for residential and commercial buildings, ensuring adherence to project specifications and timelines
- Provided translation services to facilitate clear communication between team members and supervisors, fostering a cohesive work environment
- Completed 500+ foundation projects, ensuring safety compliance and client satisfaction
